Staff Report**

Meeting Date: November 8, 2022
Case: AMD 02-22
Applicant: City of Northport
Request: Amendment to Zoning Ordinance

The City of Northport proposes to amend Table 4-1 of the Zoning Ordinance to include Medical Cannabis Dispensing in the C-6 zoning classification. At the October 24, 2022, City Council meeting, the Council voted to authorize the operation of medical cannabis dispensing sites within the corporate limits of Northport. C-6 zoning is primarily located along McFarland Boulevard. It is for this reason that staff feels this area would be best suited for this type of use.

Any action on this item would be a recommendation to the City Council.

Dear Ms. Tubbs:

Thompson Engineering (Thompson) is pleased to submit our proposal for engineering services on the above referenced project. Thompson appreciates the opportunity to present this fee scope and fee proposal for your review and approval.

Scope of Work

This proposal is for additional design to include modifications of the intersection of Watermelon Road and Rice Valley Road. During the development of the resurfacing plans, ALDOT determined that it was necessary to modify the intersection to accommodate pedestrian crossings including the addition of crosswalks, refuge islands, and pedestrian signalization.

Survey

- Conduct a topographic survey to extend the existing survey approximately 400' from the intersection east along Rice Valley Road.
- Locate existing right-of-way within the additional area

Design

- Develop construction plans for the intersection modifications and revise current plans accordingly. See attached man-day form for anticipated sheets to be added and/or revised.

Not Included in Scope

- *Geotechnical investigation and engineering*
- *Tract sketches and descriptions for right-of-way (additional right-of-way not anticipated)*

Work Authorization and Schedule

Provided the scope and fee is acceptable, authorization for the work may be initiated by receipt of the executed General Terms and Conditions attached hereto. Thompson will be able to begin work within 14 days of receiving a written authorization to proceed.

Compensation

Thompson proposes to perform these services for a **lump sum fee of \$46,294.00.**

Services will be invoiced on a monthly basis at or near the end of each month. Payment of invoices shall be received within 30 days of the date of the invoice.

Closure

Thompson Engineering appreciates this opportunity to submit our proposal for engineering services. We trust that the scope of services and fees outlined herein are acceptable and within your project plans and look forward to commencement of work. Should any questions arise regarding the technical scope and/or schedule of fees for this proposal, please advise.

Respectfully submitted,

Neither the Client nor **Thompson Engineering** may delegate, assign sublet or transfer his duties or interest in this Agreement without the written consent of the other party.

13. SAMPLING OR TEST LOCATION

Client may be charged additional fees for costs associated with surveying of the site for the accurate horizontal and vertical locations of any tests. To obtain accurate information in a roof investigation, roof cuts may be necessary. It is the responsibility of our Client to make the appropriate repairs to these roof cuts using materials consistent with the roofing system and in accordance with any existing material manufacturer's warranties. A roofing contractor or maintenance personnel selected by Client should be on the roof to make repairs at the time the samples are obtained. **Thompson Engineering** can make temporary repairs at the time of **Thompson Engineering's** inspections, but additional charges may be incurred. Although every attempt will be made to make these repaired areas water tight, **Thompson Engineering** will in no way be responsible for any water damage to the roofing system, building, or its contents resulting from **Thompson Engineering's** temporary repairs.

16. FIELD MONITORING AND TESTING

If the Scope of Work in Exhibit A includes construction field monitoring and/or testing, **Thompson Engineering** shall visit the project site at intervals appropriate to the stage of construction or as agreed to in writing by the Client and **Thompson**

Engineering, in order to observe the progress and quality of the work completed by the contractor. Such visits and observations are not intended to be an exhaustive check or a detailed inspection of the contractor's work but rather are to allow **Thompson Engineering** to become generally familiar with the work in progress and to determine in general if the work is proceeding in accordance with the contract documents.

Thompson Engineering shall not supervise, direct or have control over the Client's work nor have any responsibility for the construction means, methods, techniques, sequences or procedures selected by the contractor nor for the contractor's safety precautions or programs in connection with the work. These rights and responsibilities are solely those of the contractor in accordance with the contract documents. Thomson Engineering shall not be responsible for any acts or omissions of the contractor, subcontractor, any entity performing any portion of the work, or any agents or employees of any of them. **Thompson Engineering** does not guarantee the performance of the contractor and shall not be responsible for the contractor's failure to perform its work in accordance with the contract documents or any applicable laws, codes, rules or regulations.

17. SAFETY

Should **Thompson Engineering** provide observations or monitoring services at the job site during construction, Client agrees that, in accordance with the generally accepted construction practice, the contractor will be solely and completely responsible for working conditions on the job site, including the safety of all persons and property during the performance of the work, and for compliance with OSHA regulations. These requirements will apply continuously and will not be limited to normal working hours. Any monitoring of the contractor's procedures conducted by **Thompson Engineering** does not include review of the adequacy of the contractor's safety measures in, on, adjacent to, or near the construction site.

18. HAZARDOUS SUBSTANCES

Client agrees to advise **Thompson Engineering**, prior to beginning work, of any hazardous substance on or near the site. In the event that test samples obtained during our work contain substances hazardous to health, safety or the environment, these samples remain the property of the Client. Likewise, any equipment contaminated as a result of the Work which cannot be reasonably decontaminated shall become the property and responsibility of the Client. Client agrees to pay transportation costs for samples and equipment and the fair market value of contaminated equipment.

Any reuse without written authorization or adaptation by Thompson Engineering for the specific purpose intended will be at Client's sole risk and without liability or legal exposure to Thompson Engineering, or to Thompson Engineering's subsidiaries, holding company, independent professional associates or consultants, and Client shall indemnify and hold harmless Thompson Engineering and Thompson Engineering's subsidiaries, holding company, independent professional associates and consultants from any and all claims (third party or otherwise), damages, losses and expenses, including attorney's fees, arising out of or resulting therefrom.

President Hogg opened the floor for Public Hearing for agenda item 11c5.

Mayor Bobby Herndon, 5925 4th Avenue, Northport, AL 35473 addressed Council during the Public Hearing. He stated the request for the street renaming was to recognize the citizens of the City of Northport. These citizens have contributed and distributed goods to other cities that have come together in times of natural disasters. The street renaming would be in honor of the hundreds of citizens that have donated food, money, supplies and have driven trucks when asked. Mayor Herndon requested that the City grant a grandfather waiver. About a year ago, Mayor Herndon stated he submitted an application for the street renaming prior to the new regulations but was asked to wait until the new regulations were put into place. He did not name a specific person who requested him to wait.

President Hogg asked if Mayor Herndon submitted a completed an application prior to the new regulations being adopted. Mayor Herndon said he had completed the application and then he was asked to wait to submit until the new regulations were adopted. Mayor requested a favorable vote on this item. President Hogg stated his current application does not meet the policy adopted by Council. Mayor Herndon said he understands the policy adopted a couple of months ago impacted his application.

Before closing the Public Hearing President Hogg called on any staff that could offer any further insight to help better understand this situation.

City Attorney Ron Davis said he could not speak to when the application was submitted. All he could speak to was the current policy requires the street renaming request be for an individual or for an organization and required for it to be brought by a member of Council. And to clarify, President Hogg repeated, the police required it to be brought a member of Council.

President Hogg closed the floor for Public Hearing for agenda item 11c5.

Councilman Washington asked if the motion is denied at this meeting, does it have to wait an entire to be brought back to Council. City Attorney replied that there is no clear-cut answer to that. Usually someone from the prevailing side could bring it up before that. Councilman Washington asked if someone from the Mayor's group wanted to bring it back before the Council prior to a year, could they do that. Mr. Davis said that it could be done.

Mr. Davis said to his knowledge there is no organization named Benevolent Way.

Motion by Councilman Washington, Second by Pro Tem Hinton to table the motion for the street remaining until January 23rd Council Meeting.

Mayor Herndon interrupted stated he did not have a group; the citizens of Northport was his group. Mayor Herndon requested Councilman Washington rescind his motion for tabling. He did not see the motion passing on the January 23rd meeting if it did not pass at tonight's meeting.

Motion was rescinded by Councilman Washington and Pro Tem Hinton agreed to this.

Motion by Councilman Washington, to rename a portion of 28th Street, located between Lurleen B Wallace Blvd and 20th Avenue to Benevolent Way. There was no Second. The Motion died due to lack of support.

Having said that, effective December 31, he will no longer be Mayor of Northport. He declared that if he could not get support on something that simple as a street renaming that he does not need to be Mayor.

Councilwoman Dykes, District 4, Councilwoman Dykes stated she was pretty “pissed off.” She stated that all of the good he had done for the city was negated by selfish a decision made out of haste. She declared that the City Administrator had given him other options and he chose to not take those options. She said he is quitting and that is not him as a person and that is not him as a Mayor.

President Hogg, District 5, President Hogg stated that there are not many times he is speechless is any type of setting. He never thought this would come.
